Extraco
Technology

Never purchase another computer or server again.

completecloud

What's included:

HARDWARE & SOFTWARE
All of your I.T. hardware and software are included: work stations, servers, and networking equipment. Utilize your existing computers or equipment provided in our package — It's entirely up to you.

24/7 I.T. SUPPORT
Our U.S. based support team resolves 90% of tickets within 30 minutes with 24/7 availability. 9 out of 10 calls are answered within 5 minutes.

DISASTER RECOVERY
A triple-redundant data center will be backing up your critical data. We will even replace hardware in the event of an emergency.

MANAGED SECURITY
Our data center has the highest level of certifications and cybersecurity. We are proudly serving the Department of Defense and many other highly regulated environments.

MOBILITY
Imagine having access to your work computer from any device, at any time. Our solution is fast enough to run video and CAD modeling software from any mobile device without efficiency loss.

Rethink your I.T.
CompleteCloud is a very unique, nationwide I.T. solution that allows businesses to abandon their old I.T. approach for a subscription-based model. By completely eliminating your capital expenses, security concerns, and disaster recovery fears, we offer a complete package so you don't have to worry about I.T.

Why us?
EXTRACO TECHNOLOGY offers the most secure, private cloud data center solution on the market that leverages remote computers to allow companies to rethink the way they pay for, access, and support their I.T. needs. CompleteCloud's unique pricing model provides a business with all of their I.T. needs using a simple per user, per month pricing model that never changes.
